MOYA NANDAO'S BIOGRAPHY

1.0 - Early Family History

Moya Nandao is a Zambian Citizen who was born on the 30th December 1997 in Kaoma Hospital, western province. He is the second born in his family. His siblings include Mercy, Morgan, Lubasi, Muyunda, Mwandabai, Grace and Nyambe. His mother's name is Kamanda Nalishuwa and his father's name is Morgan Nandao.

1.2 - Primary, Secondary and School History

As a small boy, Moya was introduced to school in 2003 at Mundia Nalumino Basic School in Kaoma western province of Zambia.

He was a boy that really liked school very much, even though his father and mother were not working but just staying in the village.

At that time schooling in the village was difficult, that is why he was taken to the township by his auntie, the elder sister of his Father called Nandao Hilda, who was working in the ZAMBIA NATIONAL SERVICE at that time. He was taken to the township when he was in Grade three.

He continued his primary school in the township at Katandano primary school. He completed his Primary School in grade 7(Seven) with flying colors.

He later continued and completed his Secondary school at Katandano Secondary school with flying colors and enabled him to be accepted at Solwezi Technical High school (SOLTECH) in 2012. SOLTECH was and is still one of the very best High Schools in Zambia. He completed his High School in grade 12 with flying colors.

1.3 - College and current life History

Moya Nandao when growing up was a very intelligent boy and his ambition was to become a Medical Doctor. And having completed his high school with flying colors, He wanted to study Medicine at the University Of Zambia (UNZA).

But due to lack of Sponsorship, He started doing Registered Nursing at Mukinge Schools of Nursing and Public Health College in Kasempa, North Western province, Zambia in 2016. In 2018 he finished his Nursing course. In 2019 The Zambian Government was recruiting Nurses to tackle out the ever increasing demand for more health workers in the country.

Lucky enough, Moya Nandao was among the 3000(three thousand nurses that were recruited that year and is now currently practicing nursing at Mukinge Mission Hospital.

1.4 - Hobies

Though Moya Nandao being a registerd nurse, he has things that he likes doing a part from practicing nursing. Some of these things include:

Singing, Playing football, running, Doing 3d art, coding websites, playing video games and drawing pictures. Etc

CAF CHAMPIONS LEAGUE

The CAF Champions League, is known for sponsorship purposes as the Total Energies CAF Champions League and formerly the African Cup of Champions Clubs, is an annual football club competition organized by the Confederation of African Football and contested by top-division African clubs, deciding the competition winners through a round robin group stage to qualify for a double-legged knockout stage, and then a home and away final. It is the most prestigious club competition in African football.

The winner of the tournament earns a berth for the FIFA Club World Cup, a tournament contested between the champion clubs from all six continental confederations, and also faces the winner of the CAF Confederation Cup in the following season's CAF Super Cup. Clubs that finish as runners-up their national leagues, having not qualified for the Champions League, are eligible for the second-tier CAF Confederation Cup.

Egyptian clubs have the highest number of victories (17 titles), followed by Morocco with 7. Cameroon, Egypt, Algeria, Tunisia

and Morocco have the largest number of winning teams, with three clubs from each having won the title. The competition has been won by 26 clubs, 12 of which have won it more than once. Al Ahly is the most successful club in the competition's history, having won the tournament a record 11 times.

The Immortals

CAF CHAMPIONS LEAGUE ANTHEM HISTORY

For over a decade since the creation of the African Champions league, there has been no specific anthem to set as its reference apart from the CAF Anthem which was and is still used in all of Cafs Competitions. And this caused the African football fans to start feeling as if all of the Confederation of African football (CAF) Competitions to be just one.

This state of static boringness caused them to start seeking and looking for much more entertaining football matches which had a wide variety of different themes and Anthems that automatically triggered them to fantasise even more about those leagues.

Most of the African football fans switched from CAF to UEFA because of its entertaining football matches which vary in Themes, Anthems, Graphics and also in Colors. These little little things caused Eufa to be a more successful football body in the footballing world than other footballing bodies in the world.

The Most well-known Eufa competitions in the world with different anthems include the Eufa Champions League, Europa league, Eufa Europa league and Euro league etc. This has earned Eufa tons of billions of dollars in the entertainment industry.

Later in the 2020s, Moya Nandao was introduced to social media by his friend Luckson Mazuba. When he started browsing through social media including Twitter and Facebook, He always used to find this question from people which needed an answer. And this question was as follows. "Why does the Caf Champions League does' not have a specific Anthem?".

He saw this question Repeatedly and this caused him to make an attempt to answer this question with an anthem which he called "The Immortals". That is what caused him to come up with this anthem.

CAF CHAMPIONS LEAGUE ANTHEM

The Caf champion's league anthem was written by Mr. Moya Nandao in six Official African languages, Which include English, French, Portuguese, Swahili, Spanish and Arabic. He wrote it in such a way as to represent all the entire African continent at large and to set as the reference of the Caf Champions league. it is known as "THE IMMORTALS".

And it is based on the ESPN fifa world cup 2010 theme by Lissle More. With its Powerful melodies and acheostra instruments in it, it is such an amazing peace of music to any one who hears it and it has the ability to boost any individuals emotions when it comes to football. This song is one of the songs that elevates peoples emotions towards football.

This Anthem is free of charge and can be downloaded in the link below if needed by any one.

CAF CHAMPIONS LEAGUE ANTHEM GRAPHICS

The Graphics came in as a dream to Moya Nandao in one of his dream. In this dream he saw a figure that looked like the Caf Champions League trophy in a golden color.

This figure was floating in the clouds with some islands floating and surrounding it. In its top part, there was a stadium floating on a sea with some cities surrounding the stadium.

This stadium was so large and filled with football fans and footballers, and it was known as the **CHAMPIONS STADIUM**.

Since this figure looked familiar with caf champions league logo, Moya Nandao made this graphite as the graphics animation part of the Caf Champions League Anthem.

And Moya Nandao being a part time 3D artist, he tried visualizing that dream like this in figure 1 below.

FIGURE 1

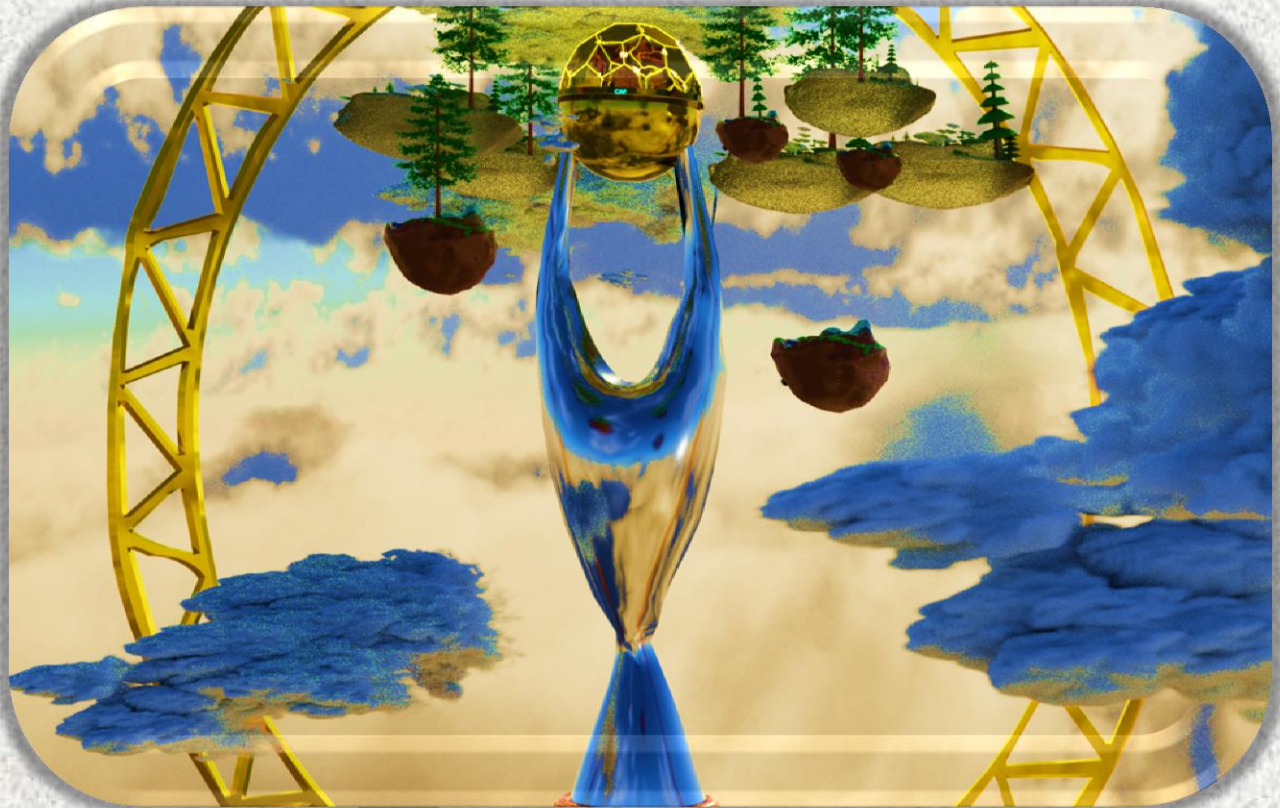

Figure 2 below shows the stage that floats in the air ,and it is known as the Grandest Stage of them all,

FIGURE 2

Figure 3 below shows the stadium that floats on water. This is where the showcase of the immortals takes place. This is where the main

event takes place. This is where the champions league takes place and it is known as the *CHAMPIONS STADIUM*.

FIGURE 3

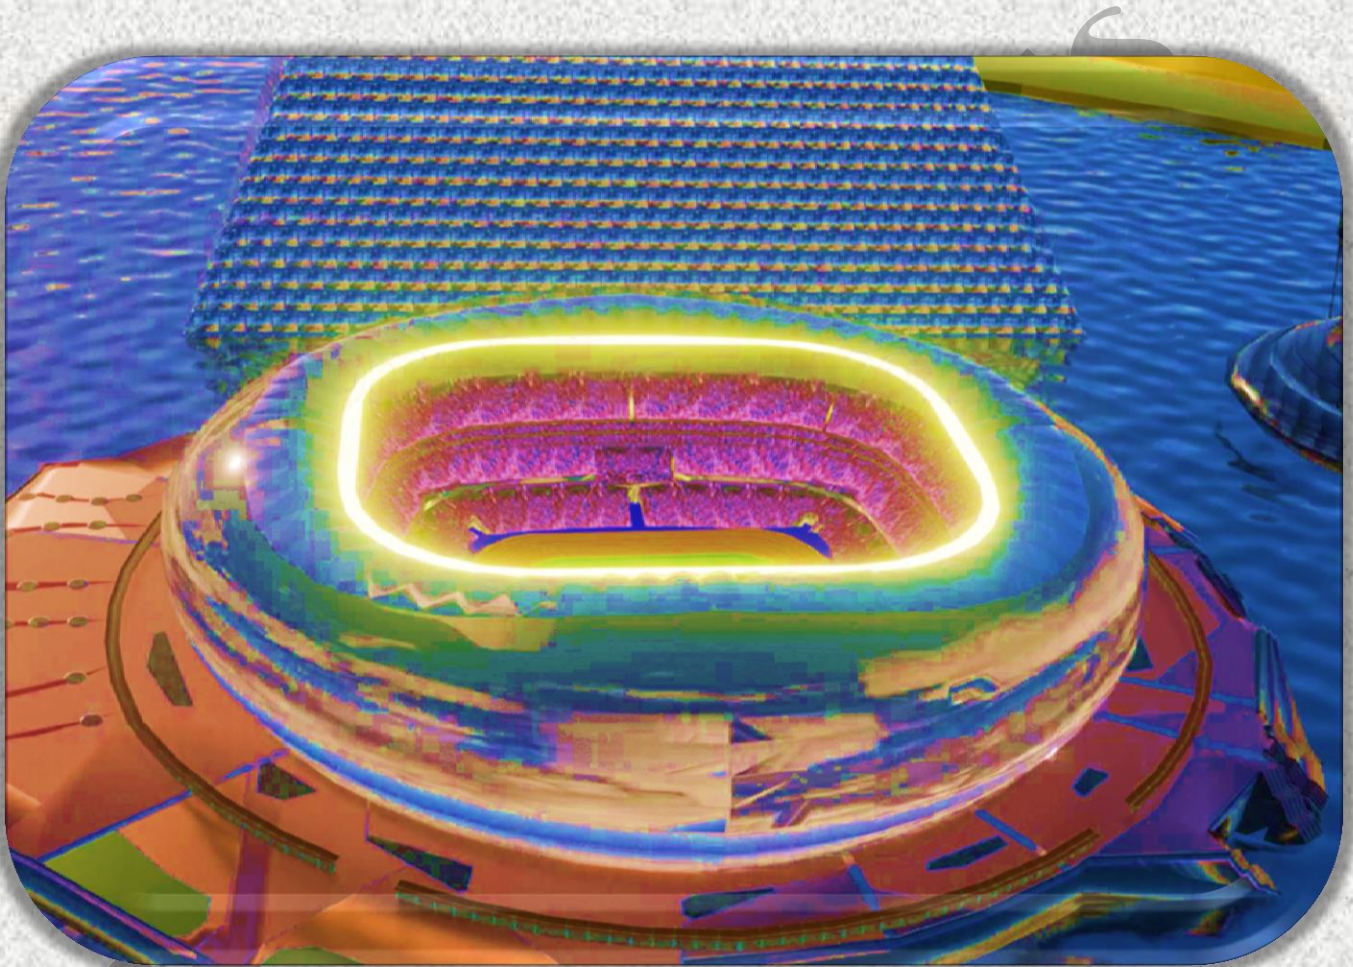

Figure 4 below shows the full visualization of Moya Nandao's Dream.

FIGURE 4

Figure 5 below shows the Caf Champions League Studio Visualisation. This studio should be built and managed by CAF and all of the Caf Champions League matches should be Officially Analised live from this Studio by the CAF Football Annalists. Because the way things are right now, you will find that the ones annalising the matches are TV Broadcasting Companies and this

shows you how lazy the African body is when it comes to this. Also The figure 5 below shows the unique theme of the Champions League Studio. The background of the studio are clouds, symbolizing the supremacy of the floating Grandest Stage of them all in the Air.

FIGURE 5

For the score boards, it is up to the CAF TV Technicians to figure out the type of scoreboards to be used because it is one of their responsibility, but they should be in white, black and Golden colors.

CELEBRATE AFRICAN FOOTBALL

What this means is that, as an African, it is the responsibility of everyone in making African football amazing and entertaining in everyway. Therefore it is now the time of sharing ideas on how to decorate our beautiful games on our own continent rather than spending all our resources on watching football content from other continents. Let all Africans celebrate African football Because if they don't, then no one will.

Therefore if you would like this anthem to be played In our African Stadiums during the Champions League, All you have to do is to safely protest for it, so that CAF makes it Official. Otherwise nothing will change until CAF notices that the African People really want this Anthem to become the Official Caf Champions Lague Anthem. Until then Bye-Bye.
